CORPORATE PROFILE

HUMANIQUE's history, mission and values tell the story of who we are as a company. We began more than 10 years ago as a pharmaceutical distributor, providing products to customers. Today, we're one of the India's growing pharmaceutical companies, We sell our products in approximately 20 countries and territories. What hasn't changed is our dedication to providing access to high quality medicine with affordable prices

PORTFOLIO SPANNING WIDE RANGE OF THERAPY AND DISEASE AREAS

Over the years, the company has significantly grown its portfolio of products across mass and specialty therapies. Today, our portfolio has over 200 products covering the whole spectrum of disease areas spanning gastroenterology, oncology, pain management, cardiovascular, dermatology, urology, nephrology, rheumatology and diabetes.

MISSION

we are committed to setting new standards in health care. Working together and access to high quality medicine, we:

- A. Make reliability and service excellence a habit
- B. Do what's right, not what's easy
- C. Impact the future through passionate working behaviour

DIVERSIFICATION

AS generic utilisation rises to about 48%, and we continue to capture market share while we continuing licensing manufacturing units on our name and growing our own Label.

MANUFACTURING

We have ensured world-class quality in design, equipment and operations in all our Licensed manufacturing facilities across India. We have licensed with over 3 (finished dose) state-of-the-art manufacturing sites in Gujarat, India. Our licensed units ensure to provide best-in-class products to patients & our associated partners across the Globe

Our exclusive manufacturing operations are focused on producing generics, branded generics, speciality, Hormonal products, Suppositories products in the full range of dosage forms, including tablets, capsules, injectables, Pre-filled syringes, ointments, creams and liquids.

We have a highly skilled team of regulatory affairs specialists who are well versed with regulatory policies and procedures around the world. They have a wealth of experience in the timely filing of dossiers as well as handling regulatory queries from both authorities and customers.

A wide range of regulatory agencies routinely conduct stringent audits of our manufacturing facilities for compliance with Current Good Manufacturing Practices (cGMP). Several regulatory agencies, including WHO-GMP, NAFDAC, PPB Kenya, Uganda, DPM Cote D Ivory, Cambodia MOH, Tanzania, Sri Lanka have certified our facilities & several other country approvals are under pipeline.

To maintain quality standards, every exclusive manufacturing plant has well defined procedures and systems in place in compliance with the requirements of the Current Good Manufacturing Practices (cGMP), WHO, and Several regulatory agencies, including NAFDAC, PPB Kenya, Uganda, DPM Cote D Ivory, Cambodia MOH, Tanzania, among others.

QUALITY

If there is one attribute to which we attach the utmost importance it is quality. Quality is considered paramount at all licensed manufacturing units of pharmaceutical products. Our manufacturing operations are driven by best-in-class technology and processes, abiding by all major stringent regulatory approvals. Our passion for quality goes beyond business and statutory requirements. Putting patients first is our motto.

Our Quality Management Team ensures that every product manufactured and distributed by us complies with all internationally accepted good practices and standards of quality, purity, efficacy, and safety.

Each of licensed manufacturing site has well trained personnel for quality control along with a regulatory affairs department ensuring strict adherence to quality systems and procedures. The teams ensure that the latest updates in GMP are being translated into guidelines, standard operating procedures (SOPs) and protocols. The teams ensure that these guidelines are implemented to deliver quality products time after time.

Our unwavering commitment to quality goes beyond ourselves. We insist that our business partners comply with international regulatory and business standards which are in alignment with those of our own. Our own quality standards are constantly benchmarked against global best practices

We committed to the highest levels of quality and will ensure to meet the exemplary standards that are expected of a global pharmaceutical company.
